2. For lines where there are two part numbers but they are two different parts – is the quantity for both? How do we put a price if the prices are different? For example Line #4-10 has two numbers 6312248/6312249 and these are two different parts with different prices (at least according to our records.) How can we fill out the price or complete the bid form for this situation?

A: A separate line item will be added for a revised Bid Tab for completing pricing.
